qashqade is a start-up in the Private Markets industry located in Zürich, CH. We provide a breakthrough enterprise software solution to calculate distribution cash flows and carried interest plans, simulate business events and report to stakeholders, replacing the predominant excel and establishing a new standard. qashqade also supports clients to implement the software, establish the necessary processes and offers advisory and expertise.

qashqade was founded February 2018. In the recent months we gained lots of traction in the market. We are growing our headquarters in Zürich and are currently looking for a **Senior Developer** (f/m, 80%-100%).

The tasks include:

- Help define the technology roadmap of qashqade
- Shape the product within the senior technical design team
- Be responsible for projects, their quality and delivery in time
- Code high quality of readable and maintainable code

We think you are a good match if

- You have fun to work with us and we have fun to work with you
- You are fluent in English. German is a plus
- You have an affinity for technology and algorithms
- You love to code and are fluent in Java and most of our technology stack items
- You like to work; you are passionate about what you do and seek to improve yourself and all working with you
- You are flexible regarding when to work and are willing to go the extra mile here and there
- You are willing to work with teams in different locations
- You want to commit yourself to a start-up with its up- and downsides

Current technology stack (no requirement to be fluent in all these)

- Java
- Javascript
- NodeJS
- Angular 9
- OAuth
- Postgres
- MongoDB
- Docker

If you see yourself, then please send us your reason why and a short CV to jeannine.wirth@qashqade.com. If you have further questions, review our webpage www.qashqade.com and or give us a call or send an e-mail.
